

# Usage Tool Instructions

Please use these instructions to set up and manage your own Data Usage over a course of a month.

Your Data Usage will automatically reset itself.

Here is the step by step instructions.

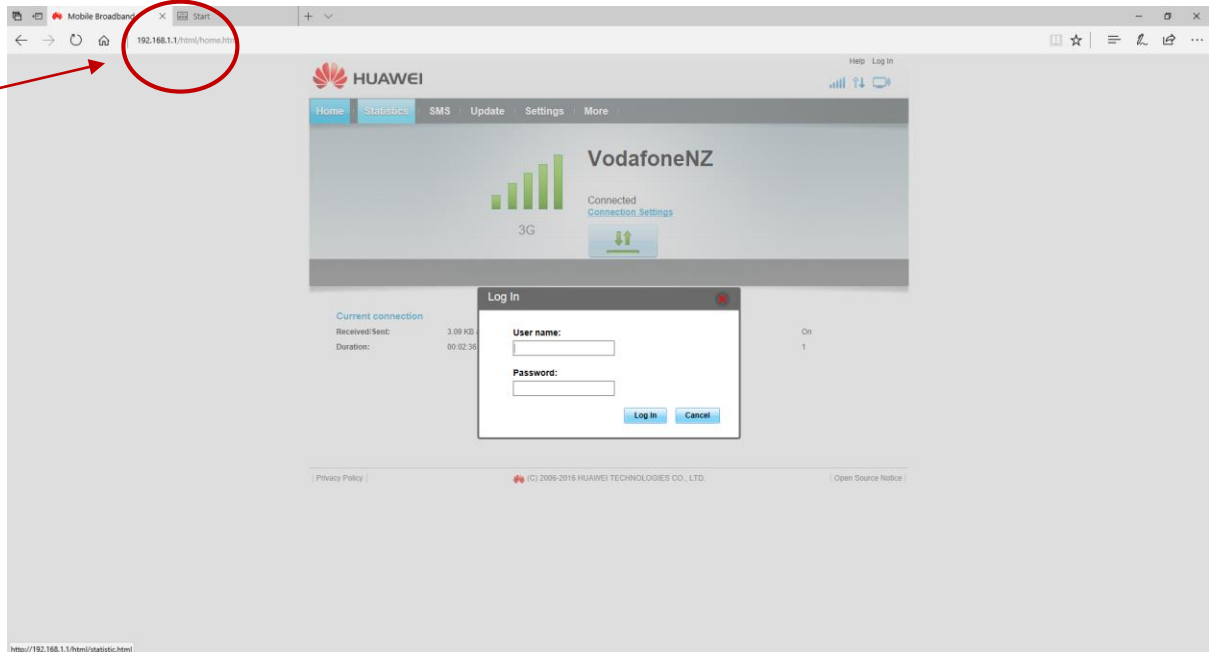

## Step 1/

Using a laptop, phone or iPad login onto the router by placing the following details into a website url 192.168.1.1 – which will give you the prompt screen below.

Type in the following to access the router -

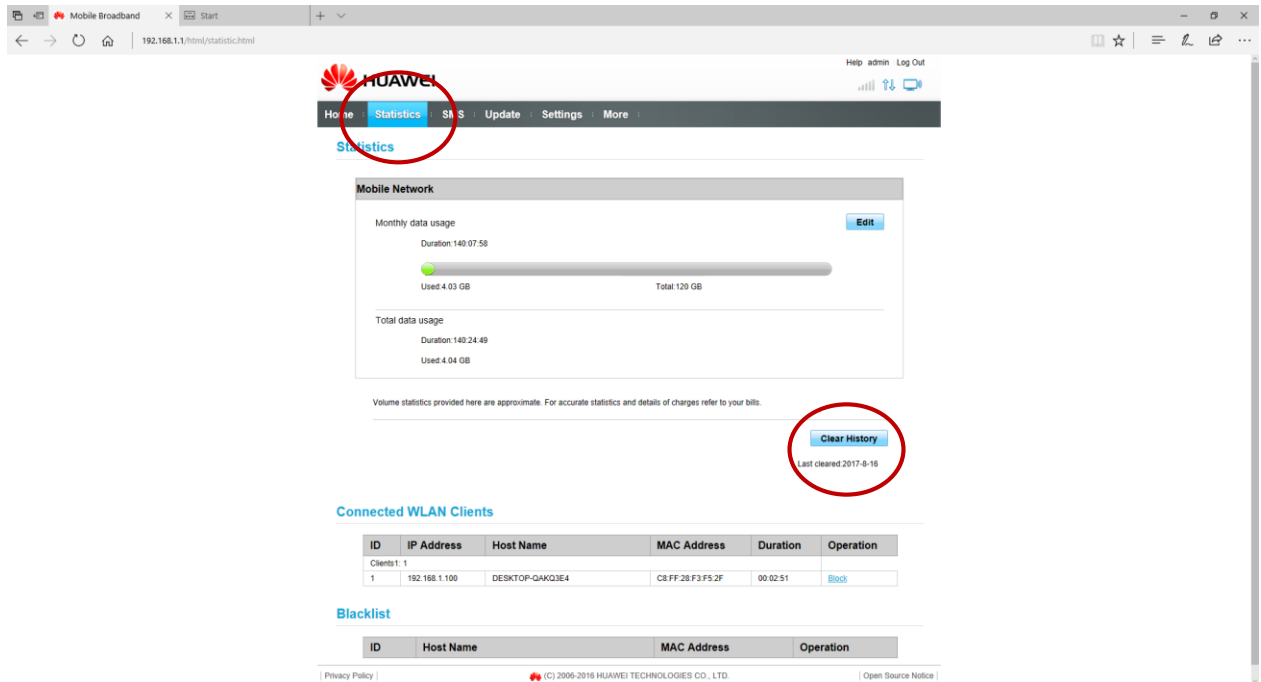

**Username – admin**

**Password - admin**

## Step2/

Then click onto the **"Statistics"** icon which will give you this screen –

The screenshot shows the Huawei Mobile Broadband web interface. The 'Statistics' menu item is circled in red. The 'Clear History' button is also circled in red. The page displays data usage statistics for the mobile network, including monthly and total data usage, and a table of connected WLAN clients.

**Mobile Network**

Monthly data usage [Edit](#)

Duration: 140:07:58

Used: 4.03 GB Total: 120 GB

Total data usage

Duration: 140:24:49

Used: 4.04 GB

Volume statistics provided here are approximate. For accurate statistics and details of charges refer to your bills.

[Clear History](#)  
Last cleared: 2017-8-16

**Connected WLAN Clients**

ID	IP Address	Host Name	MAC Address	Duration	Operation
Clients: 1					
1	192.168.1.100	DESKTOP-QAKQ3E4	C8 FF 28 F3 F5 2F	00:02:51	<a href="#">Block</a>

**Blacklist**

ID	Host Name	MAC Address	Operation
----	-----------	-------------	-----------

This will bring you to this screen where you fill out the required details for your plan –

Enter the following –

- Start Date – 14
- Monthly data plan – Enter your plan details (peak only) i.e – 30/120/200
- Change the Plan from MB to GB
- Threshold should be set to 95%

Then push the **SAVE** button.

#### Step5/

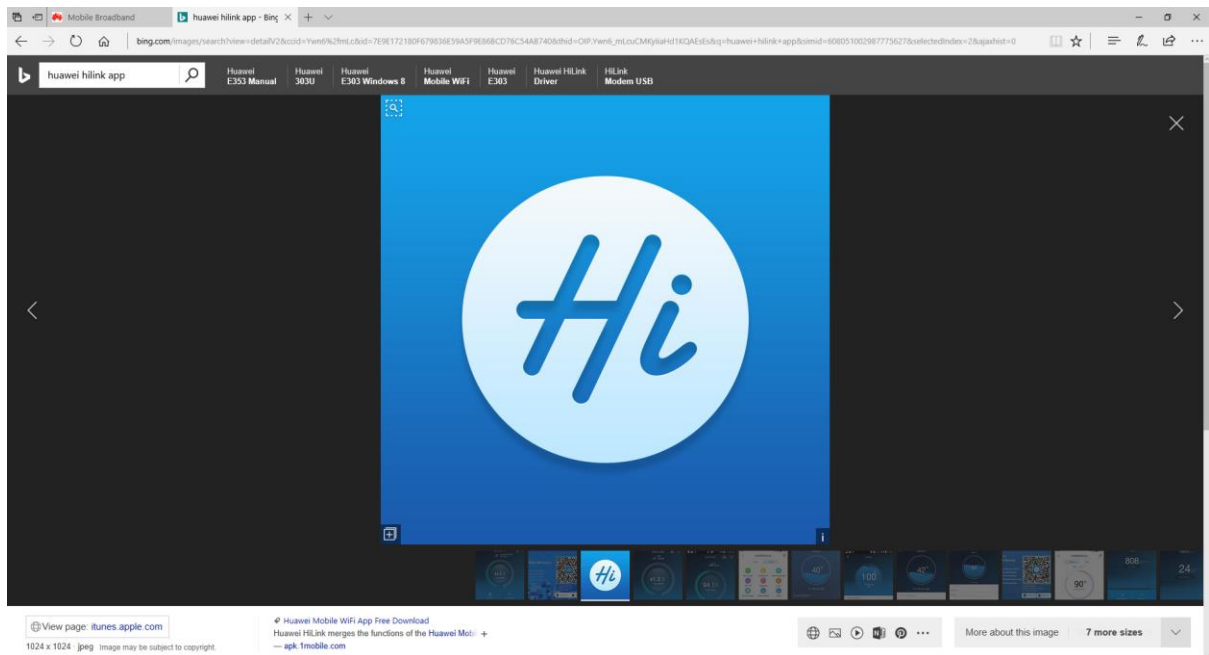

Then completely remove the power plug from the back of the router for no less than 1 minute.  
Then plug in to restart the router.

#### Step6/

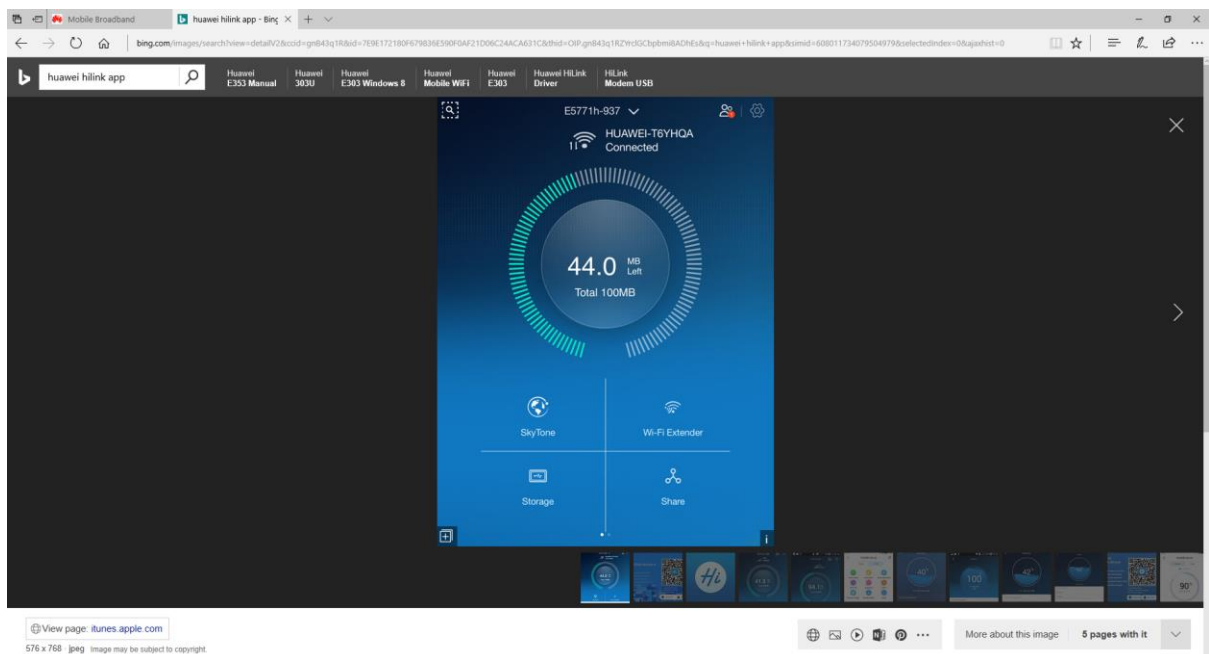

Download the usage app –

Iphone users – download from your app - **“Huawei hilink app”**

Samsung users – google the following **“Huawei hilink app”** then download.

Follow the prompts to install and you will end up with a screen like this below -

**\*\*Please not that you will need to be connected to the router for it to access the above information.**

Call 0800 BLUEDOOR - if you have any questions.
